B.Sc. in Software Engineering
Bule Hora University — Bule Hora, Ethiopia
Expected Graduation: July 2028

Language

English
Amharic

Projects

- Amazon Clone: E-commerce website with product listings, search, cart, and integrated payment system.
- Zoom replica: using Node.js. so that two or more users can go online and meet face to face.
- Netflix Clone: Full-stack app replicating Netflix UI and functionality w/ authentication and dynamic content using React and Node.
- Responsive replica of Apple's website built with React.js, featuring YouTube API integration to display content from Apple's official YouTube channel.
- In addition, Built **10+** modern & responsive sites using HTML, CSS, JS and their libraries.

BELAY ZELEKE

Fullstack web developer

Professional Summary

Motivated web developer with a passion for responsive, user-focused design and full-stack development. Skilled in building optimized, aesthetically pleasing web applications with strong problem-solving and debugging abilities. I have experience managing projects from concept to deployment, ensuring performance, scalability, and maintainability. Adaptable, collaborative, and committed to delivering high-quality solutions that align with business goals. Always eager to learn new technologies and bring fresh ideas to the table. Enhanced communication and problem-solving skills in cross-functional team settings.
